

## VNS1021 - Wireless Controller

The **VNS1021 Wireless Controller** is designed to provide dry contact closure for any electrical device.

The VNS1021 is the perfect solution to enable wireless remote controls in situations where a hard-wired approach is impractical or too costly.

### Key Features:

- **Converts Ordinary Electrical Devices to Wireless**
- **Built-In 10A Dry Contact Switch Relay**
- **Designed for Easy Indoor and Outdoor Installations**
- **Group and Zone Paging Capabilities**
- **Operates from 12V DC (Using Provided Power Adaptor)**

### Options, Accessories and Complementary Products:

Part Number	Description
VNS2255	External Antenna

### Specifications:

Dimensions	7.5" x 5.1" x 2.7" (W x H x D)	Frequency	VHF (148 - 174 MHz), UHF (400 - 470 MHz)
Weight	1.85 lbs.	Paging Format	POCSAG, Narrow-Band
Power	12V DC / 3A (Using 100-240V AC)	Data Baud Rate	512 or 1200 BPS
Color	White	Activation Codes	6
Operating Temperature	32° - 120°F	Receiver Sensitivity	10u V/M
Humidity	0% - 95%, Non-Condensing	Limited Warranty	One Year Parts and Labor
Packaging	Weatherproof Polycarbonate
