

THE JBL ON STAGE™ 200ID loudspeaker dock is a complete sound system for iPod® and iPhone™ – one that will become the new centerpoint of your personal entertainment space. Imagine a total audio system in one place, with no extra wires running across your table or desk. Connected to your new-generation iPod or iPhone, MP3 player or other music source, the JBL On Stage 200ID system produces clean, powerful sound, letting you take complete control of your music.

JBL ON STAGE™ 200ID

HIGH-PERFORMANCE LOUDSPEAKER DOCK FOR
iPod® AND iPhone™

JBL ON STAGE™ 200ID

HIGH-PERFORMANCE LOUDSPEAKER DOCK FOR iPod® AND iPhone™

COMPATIBILITY The JBL On Stage 200ID loudspeaker system is compatible with docking versions of the iPod, including the iPod touch, iPod nano G3 and the iPhone. A stereo mini jack connection also allows you to enjoy high-quality audio from a variety of other devices such as MP3 and CD players, desktop computers (all platforms), satellite radio and laptops.

EASY-TO-USE MUSIC AND NAVIGATION CONTROLS Just a touch of the music controls increases or decreases the volume. Using the navigation controls, browse songs, playlists and photos, change tracks and settings, and more. With the JBL On Stage 200ID remote, you have complete control of your iPod, as if it were in your hand.

CONNECTION VERSATILITY The JBL On Stage 200ID system is a multimedia focal point. Enjoy your iPod, view photos or videos, and listen to virtually any other auxiliary audio component, all through the JBL On Stage 200ID loudspeaker dock. Connect the USB cable to your computer for full compatibility with iPod and iTunes®.

DIGITAL POWER AND DSP The system features a powerfully tuned digital audio path. The clean and compact digital amplification, coupled with DSP (digital signal processing) equalization, efficiently provides the transducers with cool-running power.

ADDITIONAL FEATURES

Smart remote – The Smart remote has several modes of operation. The Music mode allows you to control the volume, change tracks, fast forward and fast reverse. The Navigation mode allows you to navigate menus for your iPod, just as if you were controlling the iPod itself. You can access your music, view your slideshows, and find and play your videos.

Evercharge topology – The JBL On Stage 200ID system charges your iPod or iPhone, even when not connected to the computer or if the system is off.

ADVANCED TECHNOLOGY The JBL On Stage 200ID loudspeaker dock combines many proprietary technologies for the highest quality sound, offering astonishing bass and clear sound from any direction.

Phoenix transducers – The Phoenix drivers provide accurate high frequencies and are also capable of low-frequency extension to bring you clean, powerful bass.

Slipstream port design – The JBL On Stage 200ID port minimizes boundary layer separation, resulting in high-output bass with low distortion.

COE (Computer-Optimized Equalization) – The JBL On Stage 200ID system equalization is computer-optimized, for a rich, complete soundstage over a wide range of listening positions.

OCT (Optimized Compression Topology) – The proprietary compression technology ensures clean, accurate sound at high output levels.
