

THE LARGE SCREEN PORTAL TO A THREE-DIMENSIONAL WORLD

With picture performance that outpaces today's smaller flat panels, the Mitsubishi WD-92A12 offers a larger than life, intensely vivid 2D and fully immersive 3D viewing experience. In a huge 92" Class screen size, this Mitsubishi 3D DLP® Home Cinema TV delivers incredible picture performance at an exceptional value, and completely define the large screen 3D entertainment category.

All 2012 Mitsubishi 3D DLP® Home Cinema TVs utilize the same core DLP® technology that power the vast majority of 3D Cinemas.

BACKPANEL

*TV and some PC displays have standard overscan. Features, specifications and dimensions are subject to change without notice. Physical appearance of the television may vary slightly from images shown on this document.

Mitsubishi 3D TVs will support the mandatory HDMI 1.4a 3D signals and a few optional 3D signals intended for the United States. Specifically, the TVs will support 3D signals known as Frame Packing 1080p @ 24Hz and 720p @ 60Hz (primarily from Blu-ray players and gaming consoles), Side-by-side (half) in 1080i @ 60Hz, 1080p @ 24Hz, 30Hz, 60Hz and 720p @ 60Hz, Top and Bottom in 1080p @ 24Hz and 720p @ 60Hz and Checkerboard in 1080p @ 60Hz. These TVs also support 3D programming provided by VUDU. However, there may be some 3D sources that are not compatible with Mitsubishi TVs. In all cases: (1) 3D sources must connect to the TVs using HDMI inputs or via StreamTV™ and (2) Active Shutter 3D glasses with their own external matching synchronization emitter connected to the rear of the TV, DLP Link Active Shutter 3D glasses which do not require a synchronization emitter, or Active Shutter glasses compatible with the internal IR emitter in some TV models are required to view 3D content. External synchronization emitters must be compatible with VESA Stereo connector standards. Please refer to our web site www.mitsubishi-tv.com for the most current information.

When selecting a stand, base, or other furniture to support the TV, please make sure it is designed with the appropriate dimensions for stability and to support the TV's weight plus the weight of any additional equipment you plan to store. If you are having trouble connecting your TV or accessing StreamTV internet media services contact Mitsubishi Customer Relations at 1-800-332-2119. If you are having difficulty with your VUDU account, contact VUDU Customer Care at www.vudu.com/support. VUDU Home Entertainment Services are the sole responsibility of VUDU. Mitsubishi Electric Visual Solutions America has no control over any services or any agreement you reach with VUDU, Inc.
