TOP LOAD WASHERS

As timeless as they are reliable, these washers are built from the ground up with heavy-duty components that are guaranteed to stand the test of time.

Speed Queen commercial top load washers help a coin laundry owner provide an assortment of machines to fill the varying needs of customers — particularly those who prefer to separate items into smaller loads. Constructed from heavy-duty components, from the stainless steel washtub and all-metal transmission to the commercial-grade cabinet finish, you're ensured an extended life for your coin laundry investment.

FEATURES

At 710 RPM, the top load washer's spin speed ranks among the highest in the industry, reducing drying times and handling high turn volumes during peak periods

Our curved four-vane agitator delivers an industry-best 210° wash stroke that produces unparalleled cleaning results

Speed Queen's exclusive stainless steel tub comes with a lifetime warranty, and actually becomes smoother with each use, so it won't pill, snag or fray clothes

Fast cycle times allow laundromat owners to capitalize on the opportunities for additional profits

TOP LOAD WASHER CONTROLS

MICRO-DISPLAY

Our Micro-Display Control (MDC) clearly displays the vend price and keeps customers informed throughout the wash process with cycle status lights and a digital cycle countdown. Interfacing with a variety of aftermarket card reader systems, MDC offers four cycle selections, basic audit features and is available with a single coin drop installed.

E-MECH

The E-Mech control features a straightforward design that offers customers simple water temperature and fabric selections, using cue lights to monitor progress through the wash cycle. This control is designed to function with any coin slide manufacturer's equipment.
