*Da-Tex®, High Contrast Da-Tex®, Dual Vision, Ultra Wide Angle and 3D Virtual Black® net picture area is 1/2" x 1/2" smaller than size listed.

Converts HDTV Viewing Area to NTSC Video Format or 16:10 Wide Format.

- Drapery Masking Panels allow a native 16:9 Fast-Fold® screen to be properly masked to a standard 4:3 format or 16:10 Wide format, in effect doubling the functionality of the screen.
- Masking panels simply Velcro® into place at the top and snap into place at the bottom of the screen to snap studs along the black binding.
- Shown with optional skirt drapery.

Masking panels and optional drapery kit snap to pre-studded binding.

Velour fabric maintains fire resistance through eight dry cleanings. Ultra Velour fabric is inherently flame retardant, sound neutral, high opacity and machine washable.

Standard with black drapery masking panels or choose optional blue or pewter gray drapery.
