

The Multi Vision Imager's innovative design combines a fixed frame screen and a tab tensioned electric screen in one frame. Both the fixed and retractable surfaces are tensioned at all times to ensure the flattest possible surface for optimal viewing. The design allows for the use of Da-Lite's exclusive 3D Virtual Grey surface for passive 3D applications, which can then be retracted to reveal one of Da-Lite's industry leading proprietary flexible front projection surfaces for standard 2D projection. Alternatively, any two front projection 2D surfaces can also be specified allowing for two different types of surfaces to be used in a room where the light level may not be consistent, such as daytime and nighttime viewing. The Multi Vision Imager is available in standard HDTV format sizes up to a 159" diagonal and Cinemascope sizes up to a 148" diagonal, or can be customized to fit your project specific dimensions.

Multi Vision Imager

FIXED FRAME SCREENS

- Combines a fixed screen and a tab tensioned electric screen in one frame.
- Perfect for multi-purpose 2D/3D projection systems.
- Both the fixed and retractable surfaces are tensioned at all times to provide the flattest possible surface for optimal viewing.
- Frame standard with Pro-Trim® finish, a fabric frame covering that aesthetically enhances the appearance of the installation while absorbing light that surrounds the viewing area.

**16:9 HDTV FORMAT DIMENSIONS**

Viewing Area H x W		Nominal Diagonal		Overall Dimensions H x W	
in.	cm	in.	cm	in.	cm
52" x 92"	132 x 234	106"	269	68" x 117"	173 x 297
54" x 96"	137 x 244	110"	279	70" x 121"	178 x 307
58" x 104"	147 x 264	119"	302	74" x 129"	188 x 328
65" x 116"	165 x 295	133"	338	81" x 141"	206 x 358
78" x 139"	198 x 353	159"	404	94" x 164"	239 x 417

**2.35:1 CINEMASCOPE FORMAT DIMENSIONS**

Viewing Area H x W		Nominal Diagonal		Overall Dimensions H x W	
in.	cm	in.	cm	in.	cm
