

# CALRAD

## 90 Series - Tools

### 90-804 10 PIECE PLASTIC ALIGNMENT TOOLS

4.5" long molded plastic rods with various types of tips: slotted, hexagon, and square. Easy grip handles.

### 90-925 SOLDERING IRON STAND WITH SPONGE

Works with Calrad soldering irons 90-921 and 90-923

### 90-850 MICRO FLAT NOSE PLIER WITH INSULATED GRIP

### 90-900 TEMPERATURE CONTROLLED SOLDERING STATION

This electronic temperature control soldering station uses a sophisticated electronic circuit enabling the user to change the temperature from 300°F (150°C) to 900°F (480°C) without changing the tip or heating element. Temperature is maintained within ±10°F of its preset temperature by a unique temperature sensor located near the tip giving rapid response and little temperature variation. Soldering station has a digital readout.

**90-900T** Replacement tip for 90-900.  
**90-900R** Soldering iron replacement.

### 90-853 MICRO LONG NOSE PLIER WITH INSULATED GRIP

### 90-926 60/40 ROSIN CORE SOLDER

370 degree melting point, 18 awg, 7 inch dispenser tube.

**90-903  
BUTANE GAS TORCH WITH  
CERAMIC HEAD**  
Comes with different tips for all styles of work. Unit is refillable. Five different tips are included.

**90-805  
CABLE SLITTING TOOL**  
Easy grip handle, adjustable cutting blade. Prepares cables up to 1.75". This tool can cut around or slit the length of the cable jacket.

**90-923  
AC SOLDERING IRON**  
40 watt pencil style. 6' cord.

**90-920  
RATCHET CRIMPING TOOL**  
Designed to produce a solid and uniform crimp with every use. Crimps spade type connectors from .5-1mm<sup>2</sup>, 1.5-2.5mm<sup>2</sup>, 4.0-6mm<sup>2</sup>. Handles cable sizes from 10 to 22 gauge wire. Comfortable plastic grip.

**90-924  
REPLACEMENT TIP**  
Replacement tip for 90-923.

**90-921  
AC SOLDERING IRON**  
30 watt pencil style. 6' cord.

**90-945  
COAXIAL CABLE STRIPPER**  
This coax cable stripper will perform two level stripping of coaxial cables Stripping the outer jacket, braided shield and inner dielectric. The adjustable blade depth works well for different coaxial cable thicknesses.  
RG-58/59/62/6/6QS/3C/4C/5C.
