

advance NETBOOK AND TABLET CARTS

Netbook Charging and Storage Cart

- CT-NS42 Charging and Storage Cart provides a fast and efficient solution for charging and storing netbook computers.
- Holds and charges up to 42 netbook computers and includes a Power Management System that charges each netbook in the most energy efficient manner while allowing the largest number to be charged simultaneously.
- Battery life is preserved by charging each netbook completely before moving on to the next unit.
- A Monitoring System is included which allows users to view the charging status for each of the three shelves.
- Secure access including locking front doors and a back panel with security screws that only allows access to the chargers.
- Standard with 5" casters, two swivel and two locking, and features a dove gray powder coated finish.

CT-NS42

Tablet Sync, Charging and Storage Carts

(Available March 1, 2012)

- Fully equipped to charge and sync tablet computers to a master laptop or desktop computer.
- The CT-TS32 holds up to 32 tablet computers and the CT-TS48 will hold up to 48 tablets and each will charge and sync via integrated USB charging ports.
- The sync and charging system automatically switches to the charging mode once synchronization is complete.
- Vinyl mats cover each shelf to protect the tablets while storing and charging.
- Secure access including locking front doors with a multi-point locking system that engages the top and bottom shelves when locked.
- A back panel with security screws only allows access to the chargers.
- Standard with 4" casters, two swivel and two locking, and features a dove gray powder coated finish.

CT-NS42 Monitoring System.
