

Emergency Escape Cabinets

Thomas Products Fiberglass Emergency Escape Cabinets are designed to store and protect a variety of life saving and emergency equipment including but not limited to dual 15 minute emergency escape air packs and airline respirator hose. Thomas Products fiberglass cabinets are manufactured with high quality materials designed to protect sensitive equipment from exposure to harsh UV rays, chemicals, moisture, dust, salt air, insects, and temperature extremes. Thomas Products fiberglass cabinets are manufactured under U.S. Patent No. 4,998,587 and are available in a variety of UV inhibiting colors as well as interiors designed to meet your specifications. The rugged and durable construction of Thomas Products fiberglass cabinets combine to produce a dependable and virtually air tight enclosure that will last much longer than steel, aluminum, wood, or plastic cabinets. Thomas Products fiberglass cabinets can be wall mounted, attached to handrails, bulkheads, or designed to be free standing.

Model Type : ABA-35						
	Outside Dimensions (in inches)					
	MODEL	HEIGHT	LENGTH	WIDTH	DEPTH	WEIGHT
