

## Breathing Air and Self Contained Breathing Apparatus Fiberglass Cabinets

Thomas Products Breathing Apparatus fiberglass cabinets are designed to protect all types of SCBA equipment including but not limited to those manufactured by Scott, MSA, ISI, Draeger and Cairns. Thomas Products fiberglass enclosures are manufactured with high quality materials and designed to protect the 5-minute escape packs, 30-minute, 45 minute and 60 minute cylinder air packs from exposure to harsh UV rays, chemicals, moisture, dust, salt air, insects, and temperature extremes. Thomas Products fiberglass cabinets are manufactured under U.S. Patent No. 4,998,587 and are available in a variety of UV inhibiting colors as well as interiors designed to meet your specifications. The rugged and durable construction of Thomas Products breathing apparatus fiberglass cabinets combine to produce a dependable and virtually air tight enclosure that will last much longer than steel, wood, aluminum, or plastic cabinets. Thomas Products fiberglass cabinets can be wall-mounted, attached to handrails, bulkheads, or designed to be free standing.
