

Fiberglass Cabinets for Stretcher Baskets

Thomas Products Model SC-1 (Stretcher Cabinet) The Thomas Products SC-1 cabinet is designed to protect stretcher baskets including but not limited to those manufactured by Junkin, Mitchell Stapp, and Ferno. These fiberglass enclosures are manufactured with high quality fiberglass and designed to protect stretcher baskets from exposure to chemicals, moisture, dust, salt air, insects, and temperature extremes. These fiberglass cabinets are manufactured under U.S. Patent No. 4,998,587 and are available in a multitude of colors as well as interiors designed to meet your specifications. Their rugged and durable construction combine to produce a dependable and virtually air tight enclosure with a much longer life expectancy than steel, wood, aluminum, or plastic enclosures. These fiberglass cabinets can be wall mounted, attached to hand rails, or attached to bulkheads.
