

## Wireless, Noise-Isolating, Luxury Traveler's Headphones.

Denon's Globe Cruiser™ In-Ear Headphones are designed for the frequent business traveler and provide exceptional sound quality, Bluetooth® 3.0 wireless connectivity, and integrated controls and microphones for a peaceful yet productive travel experience. Featuring an integrated amplifier and aptX decoding for CD-quality audio over a wireless Bluetooth connection, and a multitude of ear tips to choose from for superior noise isolation, Globe Cruiser Headphones allow you to move effortlessly throughout an airport, train station, or wherever you may roam. A rechargeable battery provides five hours of listening enjoyment. But don't worry – should the battery run out of power, you can still listen to music in passive mode (with the cable connected). An audio cable and airline adapter are included for when wireless connectivity is not allowed. Integrated controls allow for easy control of Apple® iPhone® and iPad™ or other Bluetooth devices over a wireless connection, while an integrated microphone on the ear piece provides clear phone conversations. Further enhance your listening experience by downloading the Denon Travel app, available for Apple® iPhone®, Apple iPad™ and Android® devices.

## Denon headphones Sound Like You, Fit Like You, Move Like You.

Denon Headphones are engineered from the ground up to provide the best-in-class personal listening experience for your lifestyle. Denon's line of Globe Cruiser™ Headphones are geared towards the frequent traveler, addressing the needs of this multitasking individual, with a luxury traveler's headset that Sounds Like You™, Fits Like You and Moves Like You, so you can feel the music like never before.
