

# EXPLORE™ SERIES STUDENT CHAIR

Chairs offer back support, optional armrests, and casters while stacking five high for movement and storage.

## FEATURES

- Incredibly durable design will withstand years of K-12 use. The chair has been tested to meet or exceed ANSI BIFMA X5.1-2011 standards for office chairs.
- Stacking design allows up to five chairs to stack and nest to create additional floor space for other activities.
- Multiple powder paint options for the frame allow for the creation of vibrant or calming environments and allow for furniture to be color coded to specific spaces.
- Chairs are available with arm rests or armless.
- The frame is constructed using 14-gauge flat oval steel tubing, formed using a CNC tube bender, and features arc welded connections.
- Plastic molded seat and back have a perforated pattern and are contoured for comfort and air circulation.
- Chairs are available in a smooth rolling 2" diameter caster or with floor glides.
- All Bretford seating is CAL 117 certified. Certification for CAL 133 is available for an additional fee.
- Proudly made in the U.S.A.

## FINISH OPTIONS

Plastic seat and back are available in the choice of four colors, Raven (-R); Anthracite (-A); Neutral Grey (-NG); or Warm Grey (-WG). Plastic finishing components are always Anthracite. The steel frame may be powder paint coated in any of Bretford's paint finishes.

## ENVIRONMENTAL & SAFETY SPECIFICATIONS

### POWDER COAT PAINT

All steel components are finished using a powder coat paint that greatly reduces VOCs.

### RECYCLED CONTENT

Steel components are constructed with prime steel and feature a 25% to 35% post-consumer recycled content. Steel components are 100% recyclable at the end of the product life cycle.

### ANSI-BIFMA TESTED

The Explore Student Chairs meets or exceeds relevant ANSI-BIFMA X5.1-2011 standards for office chairs. Testing standards are written for a 95th percentile adult male, defined by BIFMA as 253 lbs.

## CONSTRUCTION SPECIFICATIONS

### FRAME ASSEMBLY

The frame assembly is constructed using a 14-gauge flat oval steel tube, which is formed using a CNC tube bender, and features robotic arc welded connections.

### SEAT AND BACK COMPONENTS

The seat and back are constructed with 14% glass filled nylon with high impact modifiers added for flexibility and durability.

## WARRANTY

Bretford warrants the Explore Chair Series for 12-years, at date of shipment, against defects from materials or workmanship.

## MADE IN THE USA

The Explore Student Chair with Tablet is made at one of Bretford's Chicago area manufacturing facility, employing union labor.
