GREAT PERFORMANCES

Great performances don't just happen. They occur when the right mix of talent and technical skills come together. Because Da-Lite combines the finest materials with the talents of truly inspired craftsmen, you can always expect outstanding performance from Da-Lite products.

Da-Lite's wood products add style, class, beauty and, above all, versatility to your conference rooms, meeting rooms and offices. Choose from a wide variety of styles, designs, natural veneers, quality laminates and even custom finishes to help you and your presentation look your best.

Da-Lite's quality lecterns can be outfitted with complete sound systems, wireless microphones, well-lit reading surfaces and custom corporate logos. In addition, Da-Lite's skilled cabinetmakers can customize your lectern to accommodate any multi-media control systems.

THE CRAFTSMAN STORY

The talents and expertise of remarkably skilled cabinetmakers are reflected in every Da-Lite wood product. Building custom wood products to Da-Lite's high quality standards requires paying special attention to every detail such as choosing the finest veneers and laminates, including cherry, oak, walnut, maple and mahogany, in just the right color and grain. Hand-rubbed and full-filled, the finishes exude a deep, rich luster. It all assures you of the highest quality wood product; one that will look just as good after years of performance as it did the day it was new.

KEY FEATURES OF ORAVISUAL FLOOR MODEL LECTERNS

LED Digital Clock/Timer with countdown capability for quick time reference means presenters never lose track of time.

High Intensity Reading Light aids the presenter by illuminating presentation materials for increased clarity when lighting conditions limit visibility.

Oversized Reading Surface, so presenters can better organize their material. It's large enough to hold a 3-ring binder or accommodate a custom cutout for a monitor screen or control panel.

Dual Power Receptacles on the dash panel for laptop connectivity.

PROJECTING STYLE AND CLASS

The Oravisual Lectern Series projects the highest level of quality. Choose from a number of styles ranging from traditional to contemporary models. Each can be finished in a rich variety of veneers and laminates to match a room's decor and environment.

HOW TO SELECT YOUR ORAVISUAL LECTERN

1. First, choose the type of lectern that meets your presentation needs and requirements. For instance, for a more commanding presence in your presentations, you would pick a floor model. If you're looking for presentation versatility you might consider a stacking lectern that converts from a full-size floor model to a tabletop lectern. Da-Lite offers floor, stacking and tabletop models, plus Special Needs and Multi-Media models.
2. Select the style of lectern that best matches your presentation room's environment and decor. Choose from a variety of styles ranging from traditional to contemporary models.
3. Select the lectern finish. Da-Lite has a rich variety of veneers, laminates and carpet to blend with the decor of your room. Lectern and cabinet finishes are found on page 23.
4. Select the accessories needed to personalize your lectern to your specific needs. You can outfit your lectern with a complete sound system that includes a gooseneck microphone with shock mount, amplifier and speaker, add touch panel cutouts for more sophisticated control systems, specify A/V connectivity outlets or add a custom corporate logo. Accessories are found on page 14.

AVAILABLE MODELS

Floor Model

Offers 25" or 32" widths and features a roomy storage shelf and heavy-duty carpet casters for easy mobility. The spacious storage shelf keeps materials hidden from view and ready for immediate access.

Stacking Model

Converts in seconds from a floor model to a tabletop with matching projection stand. Features built-in electrical receptacle and heavy-duty carpet casters.

Tabletop Model

Light in weight so it can be transported from room to room, yet it offers presenters the important features of the floor model, including digital clock/timer, reading light and dual power receptacles on the dash panel.

CONCORD

This sleek and elegantly styled lectern blends with any modern room decor. Available with laminate, veneer and carpeted finishes.

♿ Available in Special Needs model

Also available with a carpeted finish suitable for rental applications.

MULTI-MEDIA

The Concord, Lexington and Providence Multi-Media lecterns provide you with a platform to do a complete computer-based presentation; yet its design is simple, clean and stylish. Choose from Da-Lite's standard configuration with various options or a custom specified configuration to meet any need.

Standard Features

- **Monitor Shelf** can accommodate up to a 17" diagonal monitor.
- **Keyboard Shelf** has a fixed-height pullout with a fold-down door, so keyboard can be concealed when not in use.
- **Equipment Shelves** are adjustable to store a CPU or other equipment. An optional rack mount can be installed for other components.
- **Hinged Reading Surface** allows access to monitor and routing cords.
- **Two Electrical Outlets** – one 2-outlet on the dash and one 6-outlet inside the lectern.
- **Projection Equipment Shelf** is perfect for multi-media presenters and digital video projectors.

Optional Features

- **Custom Cutouts** allow a control panel to be placed in the reading surface.
- **Cooling Fans** keep closed compartments cool and protect electronic equipment from overheating.
- **Equipment Rack Mount** uses the standard threaded rack mount system and can be mounted inside the lower compartment of the lectern (19" x 19" x 14").
- **Custom Corporate Logo**

EURO DELUXE SERIES

The Da-Lite Euro Deluxe Lectern is a stylish and versatile solution for any speaking engage. The refined design of the Da-Lite Euro Deluxe Lectern makes it the perfect choice for educational, hospitality, conference and meeting center applications.

- With its standard gooseneck halogen lamp, the generous reading surface easily accommodates literature and electronics.
- The frame has a satin black powder coated finish and the black velour dress panel is compatible with Velcro® making the addition of logos or signs simple.
- Power is supplied by a detachable electrical cord and an adjustable gooseneck microphone is available as an option.

EURO DELUXE MODEL

Overall: 45½"H x 23½"W x 19½"D
 Reading Surface: 22½"W x 19"D
 Shipping Weight: 56 lb.

EURO SERIES

The Euro Lectern is specifically designed for situations in which mobility and portability are important. Constructed of powder-coated steel and laminated surfaces for every day functional use.

- **Classic Euro lectern** features four 2" carpet casters (two locking) making it extremely transportable.
- **Euro Meeting lectern** is a 25"W x 48"H floor lectern with perforated front panel.
- **Charcoal Gray frame** with dove gray shelves.
- **Generous Reading Surface** provides a large area for presentation notes, laptop and other material.
- **Storage Shelf** under the reading surface lets you put material aside for later use on the Classic Euro and Euro Meeting.

ORAVISUAL LECTERN ACCESSORIES

Custom Logos promote a company's identity. Choose from silk-screened acrylic, etched aluminum or etched brass plates.

Choose from **Wireless Mic Systems**, battery-powered lavalier or hand-held.

Padded Lectern Cover protects the lectern from dust, accidents and the sun's glare.

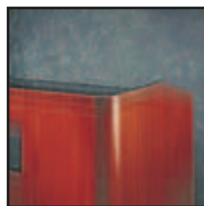

ORAVISUAL LECTERN OPTIONS

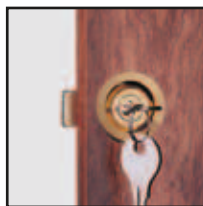

Premium Sound System provides 100 watts of RMS power.
Note: Not available with Euro series.

Lectern Cutouts can be specified by the customer to accommodate mounting various sizes of control display flush on the reading surface.

Electric Height Adjustment allows the lectern to be raised or lowered within an 8" range with the touch of a button, creating a comfortable height for every presenter.

Locking Door offers security and theft deterrence for storage areas.

Dash Panel Snap-In Connectors
Available with a wide range of connection options including any combination of network, audio, video, power and computer in double and triple gang configurations: RJ45, CAT5; RJ11; BNC; S-Video; F-Type; RCA red, black or yellow; 1/8" Mini Stereo; HD-15 (VGA) Male to Female or Blank

iPod Dock
Universal iPod dock accessory is recessed into the reading surface of any Da-Lite lectern.

EQUIPMENT RACK CARTS

Mobile Equipment Rack Cart and Video Conferencing Equipment Rack Cart furniture solutions feature an excellent combination of aesthetics and functionality. The Equipment Rack Carts are offered with your choice of seven standard veneers, four standard laminates or custom finishes. Video Conferencing models are available with single or dual universal flat panel monitor mounts, which are designed for monitors up to 50" diagonal and include an adjustable camera shelf. All Equipment Rack Carts feature rack rails for equipment mounting and include one or two 6-outlet power strips depending on the model.

- Vents in front of the unit and fans provide ample air ventilation
- Key operated front and rear doors
- Sturdy 3" casters for mobility
- Smoked acrylic front doors for easy transmission of infrared signals
- Top and bottom grommet holes for easy cable pass through

VIDEO CONFERENCING EQUIPMENT RACK CARTS

The single monitor cart accommodates up to a 50" diagonal monitor, provides 5 degrees of backward tilt, 15 degrees of forward tilt and supports 125 pounds.

The dual monitor cart accommodates two monitors up to a 50" diagonal and up to 125 pounds each.

A camera shelf, which can be mounted above or below the flat panel, is included.

Offered with your choice of seven standard veneers, four standard laminates or custom finishes.

- Available in single and dual monitor versions.
- Two locking doors.
- Rear locking access panel.
- 28 rack spaces, 14 on each side.
- Two 6-outlet power strips are located inside the cabinet.

SINGLE MONITOR

DUAL MONITOR

EQUIPMENT RACK CARTS

A multi-room transportable solution for rack components that handsomely blends with meeting room aesthetics and is available as 12, 21, 30 and dual 14 rack space units or a 17 rack space unit with a pull-out keyboard shelf. Equipment Rack Carts are standard with a 6-outlet power strip with surge suppressor, cooling fan and cord management access points on both the top and back of the unit.

VENEERS AND LAMINATES

Standard and Custom Veneers and Laminates

Hand-Rubbed Veneers

Real wood veneers have hand rubbed finishes for a deep, rich appearance. Select from the standard offerings shown here or contact Da-Lite for custom veneers and color matching.

Laminates

Select from our standard laminate choices or contact Da-Lite for a wide range of custom exotic veneers or laminates from Formica®, Nevamar® or Wilsonart®. (Note: The Hamilton, Yorkshire and Lancaster lecterns are only available in veneers.)

Custom Veneers and Finishes

In addition to our seven standard veneers, we offer a wide variety of exotic veneers and finishes. Shown is a small sampling of the exotic varieties of wood veneers that are available. Through Da-Lite's exclusive five step finishing process, we are capable of matching any veneer finish. With a unique hand staining and filling procedure, we can color match any finish with a deep, rich tone to enhance every room decor.

Custom laminates, veneers and color matching available upon request.

Finishes and textures of veneers may vary in tone or character from these printed representations. For critical color matching, contact Da-Lite for actual veneer and laminate samples.
