

CRANE Composites

DESIGNS

Decorative FRP Panels

DESIGNS is the newest FRP wall panel offering that combines the traditional benefits of fiberglass reinforced plastic with innovative and attractive patterns. DESIGNS FRP wall panels have style, install like FRP and are available with complementary moldings for seamless and moisture resistant installations.

RESILIENT

FRP will not rot, rust, mold or mildew and is easy to clean with standard cleaning materials.

AFFORDABLE

Style is now affordable. Our DESIGNS panels install at a lower cost than standard HPL or vinyl materials.

OPTIONS

Over 20 innovative and attractive designs to choose from or create your own customized panel.

Decorative Fiberglass Reinforced Plastic Panels

AVAILABLE PATTERNS

DESIGNS 4U

Create your own unique panel with our customized DESIGNS 4U panels. DESIGNS 4U provides superior quality visuals of your designs, logos or images. Custom moldings are available for seamless and moisture resistant installation. Create with ease by submitting a digital high resolution art file and Crane will do the rest! See form #7677 for more information at www.DESIGNSFRP.com.
