

iPad® Wall Mounts and Chargers

NEW

The iPad® wall mount is designed for strength, practicality and elegance, that fits both the iPad 2 and the new iPad. There is no visible hardware, and we use tamper resistant hardware for security.

Symmetrical hole patterns provide rapid mounting in portrait or landscape mode. Attractive openings for cable egress are provided. Standard colors are silver and black. As an added value we will print a client logo on the front FREE with orders of 10 pieces or more.

The Perfect POE/USB Charger

You can power and charge the iPad from a POE-Ethernet drop without the need for AC line power. Mount this small cube in a 2-gang wall box behind the FSR iPad wall mount.

The PoE / USB charger will operate and charge the iPad supporting Apple®'s charging standard. The PoE / USB Charger will also notify the iPad that it is connected to a charger avoiding annoying pop-ups.

Interfaces

Decorative and convenient cable entry points featuring wall plate and under table mounting options. Models offer passive and equalized signal processing. White, black and ivory wall plates are available to compliment a variety of color schemes.

Add an FSR Floor, Table or Ceiling Box

Floor Boxes

Match your table box with one of our elegantly constructed floor boxes. Our ADA friendly boxes provide a safe and practical approach to connecting audio, video, power, data, and more!

UL and Scrub Water Rated FL-500P (installed in carpet over concrete)

Table Boxes

Elegantly mount any gooseneck microphone with this T3-MJ mini table box. Available with one or two control buttons for momentary or maintained controls.

Patent Number US 6,881,080 B2

T3-AC2 table box is essential for convenient table top access. The 3 1/2" stylish box can be matched to any décor.

Patent Number US D553,306 S

Ceiling Boxes

NEW

Eliminate those unsightly equipment boxes hanging off the projector poles or mounted to your walls. These enclosures allow you to conceal your equipment neatly out of sight behind a hidden door that allows you to insert matching ceiling tiles.

Introducing the CB-244 Series.

Deeper box design to carry pull-down 4-RU rack cage that is 12" high, and capable of carrying 25 lbs. of electronic equipment. Available in 4 versions: non-pole mount and pole-mount, both with or without "smart" electronics.

SmartFit™ (Poke-Thru)

It's Not Just Power Anymore

FSR SmartFit is an innovative system that provides flexible power and AV solutions for fire rated poke thru's. The SmartFit system features a universal cover assembly and multiple sub-plates that install on the fire rated poke thru's and are now available in 4", 6" and 8" sizes.

The system offers three architectural finishes: Aluminum, Brass and Black providing an attractive appearance with superior durability.

With the SmartFit system, FSR delivers one consistent look for installations with power and audio/video requirements. There are sub-plates available in the SmartFit line, a Dual Decora and 3-IPS-insert sub-plates.

Raised Access Floor Boxes

All metal construction provides for one or two cable access doors, or a solid metal cover. Standard trim colors are gray, black or clay.

WB Series Wall Boxes

The WB Series is an effective way to secure and protect wall plates and data plates with multiple network connections.

WB-MS1G

FSR's Wall Box series offers 18 different models to fit a variety of applications. Recessed and surface mounts are available for new or existing construction as well as solid door or window versions. Rugged yet attractive, the WB series is an effective way to secure and protect wall plates and data plates where multiple control, data and AV access points are necessary.

WB-MS2G

WB-R2G

WB-PS4G

WB-R2G

WB-3G/4G

WB-4G

These AV wall boxes are available in two sizes, either a standard three gang plate or a standard four gang plate.

The appropriate blank plate is supplied with each wall box.

WB-500-JL

WB-500P-JL

These larger wall boxes utilize the same back boxes as the FL-500P and FL-600P with plenty of room for connectors and cables. The small door flips back allowing the cables to pass through while the main door is locked.

SMWB Surface Mount Boxes

Designed for mounting of standard gang devices and plates. These rugged utility boxes can be used to conveniently mount accessories from FSR and other manufacturer's controls, switch panels, keypads and IPS wall plates. Available in 1-gang thru 4-gang in black or white textured paint.

WB-X Series

Large Capacity Wall Boxes with Safe, Secure Cable Management

WB-X3-GNG

WB-X2

There are three back box styles that are currently available in three different connector capacities for a total of nine possible configurations.

The internal connector mounting plate styles handle either standard gang plates, FSR's huge assortment of IPS inserts or "XLR" type connectors.

WB-X1

WB-X3

The WB-X IPS and XLR style back boxes have tapped holes on the connector mounting plates for easy connector mounting and are painted black. All back boxes include installation brackets for mounting in old or new construction.

Outdoor Weather Boxes

The World's Only Outdoor Wall Boxes Designed for AV and IT Connections!

FSR's line of OWB Outdoor Wall Boxes is the latest addition to FSR's metal products line. Locking doors in white are standard with other color and style options available upon request including windows.

OWB-X

All FSR Table, Floor, Wall and Ceiling Boxes CAD drawings are available on our DVD. For your FREE COPY, or for assistance in selecting the proper box to hold your power, data, voice, video, please call us at 1-800-332-FSR1 (3771).

Intelligent Plate Solutions

An attractive yet functional element worthy of even the most luxurious architectural environment.

Our Intelligent Plate Solutions family of Audio and Video interface products offer a diverse assortment of sleek wall plates and under table mounting styles with unlimited combinations of connector inserts available. Several wall plate opening styles accept IPS inserts and additional styles also accept FSR's Active and Passive Interface components along with Simple Solutions Decora™ products.

The IPS wall plates are manufactured using a very high quality 1/4" thick milled aluminum and are designed to have the IPS insert fit flush when installed. The system components are very easy to assemble and install quickly with all the required hardware provided.

Visit our web site and drag and drop your solutions with IPS Designer. A printable parts list is created automatically.
