

SPECIAL APPLICATION GAUGES

Medical Equipment Gauges for the OEM

DESCRIPTION

U.S. Gauge medical equipment gauges include pressure gauges designed and manufactured for a variety of medical applications, such as angioplasty inflation devices, anesthesia equipment, medical regulators, respiratory equipment, dental systems, and many other applications. U.S. Gauge has over 100 years experience providing quality pressure gauge solutions for OEM customers, with over 30 years of successful service meeting the rigorous demands of the medical industry.

An overview of our medical gauge product line is at the right.
