

HydroRail[®]

Shower Columns

THE BOLD LOOK
OF **KOHLER**[®]

Before

**Simple Solution.
Big Impact.
Affordable Update.**

Breathe new life into your shower without the cost of a major remodel. Install a HydroRail® shower column without having to go behind the wall. Customize your experience by adding a KOHLER® handshower, showerhead or rainhead.

After

Before

Take your shower from ordinary to extraordinary without the hassle and expense of a major bathroom remodeling project. Start by removing your showerhead and arm.

During

Install the column without having to alter the in-wall plumbing. Four HydroRail® shower column designs make it easy to find the perfect fit for virtually any shower.

After

Complete the transformation by purchasing a KOHLER® shower hose, handshower, showerhead or rainhead.

.....

Uses existing plumbing

.....

Complete the installation by choosing from a wide range of KOHLER® showering components

.....

Angled elbow connection ensures the hose moves freely

.....

Diverter makes it easy to switch between showering components

.....

No need to go behind the wall to install

Fast and Affordable Shower Transformations

HydroRail® shower columns turn your shower into a spa-like retreat without having to go behind the wall to reroute plumbing or change out the valve. The column mounts to existing plumbing, so you simply have to remove the old showerarm and replace it with the HydroRail shower column. There are four HydroRail shower column designs to choose from. Complete your shower transformation by purchasing a KOHLER® shower hose, handshower, showerhead or rainhead for a signature KOHLER experience.

Which shower column is right for you?

HydroRail®-H Shower Columns

HydroRail-H replaces a fixed showerhead with the versatility of a handshower.

- The handshower puts control of the shower spray in your hand, allowing you to target specific areas of the body, such as sore muscles.
- The sidebar and bracket allow easy adjustments of height and angle for a more customized showering experience.
- A handshower makes it simple to rinse down the shower space for easy cleaning.

Handshower and hose are sold separately.

HydroRail®-S Shower Columns

HydroRail-S gives you all of the benefits of the HydroRail-H while keeping a fixed showerhead.

- Keeping the showerhead while adding a handshower expands the range of showering experiences.
- Switching between the showerhead and handshower is easy with a diverter valve conveniently located on the shower column.
- A handshower makes it simple to rinse down the shower space for easy cleaning.
- Reuse the existing showerhead, or replace it with a KOHLER® showerhead. Kohler offers a complete line of showerheads, from indulgent sprays that relax you to invigorating sprays that revitalize you.

Showerhead, handshower and hose are sold separately.

Which shower column is right for you?

HydroRail®-R Shower Columns

ARCH DESIGN

HydroRail-R delivers big, drenching droplets of water for a real rain experience that warms and soothes you.

- Choose the arch design for higher ceilings that allow you to raise the height of the rainhead.
- HydroRail-R gives you the unmistakable rainhead experience with the added benefits of a handshower for a spa-like experience everyday in your own bathroom.
- Place the handshower in a high position for use as a showerhead.
- KOHLER® rainheads feature Catalyst® spray, which infuses the water stream with air to deliver large, full drops that envelop you in a warm, tropical rain-like shower. It's a showering experience like nothing else.

Rainhead, handshower and hose are sold separately.

Next Steps.

Proper measurements are required to ensure the correct shower column is chosen for your space.

To quickly check if the HydroRail® system will work for you, please complete the short survey below to determine the right SKU to start with. Consult the full Pre-Installation Survey for more information.

Step 1: Measure the distance from existing showerarm to valve (Fig. 1 A)

If the distance is less than 24", HydroRail is not a suitable product for your project.

Step 2: Measure the distance from existing showerarm to ceiling (Fig. 1 B)

HydroRail Product Options

Shower Installation				
If A is 24"-33" and	-H Shower Column K-45904	-S Shower Column K-45906	-R Arch Shower Column K-45211*	-R Beam Shower Column K-45212*
B is less than 4"	•			
B is 4"-8"	•			•
B is 8"-10"	•	•		•
B is 10" or greater	•	•	•	•

Bath/Shower Installation				
If A is more than 33" and	-H Bath/Shower Column K-45903	-S Bath/Shower Column K-45905	-R Arch Bath/Shower Column K-45209*	-R Beam Bath/Shower Column K-45210*
B is less than 4"	•			
B is 4"-8"	•			•
B is 8"-10"	•	•		•
B is 10" or greater	•	•	•	•

*For the optimal rainhead experience, an additional measurement is suggested:

Step 3: Measure the distance from existing showerarm to shower floor (Fig. 1 C)

HydroRail-R Beam: 72" minimum from showerarm to floor (75" is recommended height).

HydroRail-R Arch: 75" minimum from showerarm to floor (80" is recommended height).

Note: HydroRail-R shower column is designed to perform with select rainheads. For more information, visit KOHLER.com/HydroRail.
