

2950 : Additive and Accessory for Cleaning Pump

A complete range of additives that are vital to optimise the action of the VIRAFAL® sludge removal pump, descaling pump and sludge removal unit. These additives are specific to the cleaning to be carried out. Their objective is to re-establish the ideal circulation in the installation for better effectiveness.

Descaling fluid:

(ref. 295010) to descale boilers with heating elements in copper or steel only. A mix of acids, anti-foaming agents and corrosion inhibitors to avoid damaging pipes. Colour indicator to see whether the acid is powerful enough or not.

Neutralising agent:

(ref. 295015) for neutralising the acidity remaining in the heating element after descaling. Neutralises the descaling fluid remaining in the pump before disposal.

Sludge remover:

(ref. 295025) for radiators and heated floors. Sludge elimination to re-establish the heating system's effectiveness; non-acidic. Compatible with all metals.

VIRAFAL® sludge remover for radiators:

(ref. 295055) for radiators only. Sanitizes and removes sludge and deposits in radiators. Compatible with all metals.

VIRAFAL® sludge remover for heated floors:

(ref. 295056) for heated floors only. Eliminates both sludge and algae present in heated floors. Compatible with all metals.

Sanitizer:

(ref. 295026) for heated floors. Algae and bacteria destruction to optimise thermal performance. Compatible with all metals.

Protector:

(ref. 295027) for radiators and heated floors. Improves the installation's lifetime by slowing down sludge and corrosion return. Compatible with all metals.

VIRAFAL® protector:

(ref. 295057) for radiators and heated floors. Improves the installation's lifetime by slowing down sludge and corrosion return.

VIRAFAL® disinfectant:

(ref. 295058) for drinking water pipes. Eliminates germs from drinking water pipes.

20 m transparent pipe extension:

(ref. 295022): for easier access to water inlets and outlets.

Injector for VIRAFAL® additives:

(ref. 295051) indispensable for chemical actions with the VIRAFAL®, this injector allows for continuous and even product dispensing in the water flow.

Reducer for VIRAFAL® additives:

(ref. 295052) this reducer, ideal for chemical actions with the VIRAFAL®, allows to reduce the flow to apply the chemical in the entire piping.

Description	Use	Packaging	295000	295020	295050	Kg	Ref.
Descaling fluid for steel, copper	Boiler	10 L Container	ok	ok	-	10,700	295010
Neutralising agent	Boiler	1 kg Box	ok	ok	-	1,050	295015
Sludge remover	Radiator / Heated floor	1 L Container	-	ok	-	1,200	295025
VIRAFAL® sludge remover for radiators	Radiator	1 L Container	-	-	ok	1,400	295055
VIRAFAL® sludge remover for heated floors	Heated floor	1 L Container	-	-	ok	1,400	295056
Sanitizer	Heated floor	1 L Container	-	ok	-	1,200	295026
Protector	Radiator / Heated floor	1 L Container	-	ok	-	1,200	295027
