

Stance™

THE BOLD LOOK
OF **KOHLER**®

Stance Standout Style.

Featuring strong, architectural lines and refined angles, the Stance™ faucet collection is a definitive expression of contemporary design. The collection includes lavatory faucets, pressure-balancing and thermostatic shower components, and bath fillers to help create a coordinated, modern bathroom.

Using innovative valve and trim options, Stance faucets combine clean form with ergonomic function. The collection introduces an easy-to-use single-control bath filler, and pressure-balancing shower components support a showerhead and handshower combination with a simple, integrated diverter.
