* Turnkey operation: We can provide assistance in identifying a credit card processor to be used with the AC2207. It meets PCI compliant protocols in the USA and Canada. All other countries can be considered on case by case basis.

** Validator stacker capacity is based on the size of a USA banknote which in inches measures 6.14” L x .0043”H x 2.61” W or measured in millimeters 155.9 L x 0.10 H x 66.2 W. The weight of the banknote is 1 gram. American Changer is at sole discretion and may choose the brand of validators it uses.

*** Hopper capacities are based on a token the size of a 2014 USA quarter or a \$1 USA coin. The measurements of said tokens are 0.955/1.043 inches or 1.75/26.5 millimeters and a weight of 0.182/0.260 Troy ounces (USA) or 5.670 /8.100 grams respectively. Hopper capacities may be increased or reduced using different sizes of tokens.

**** Dimensions and weights are reasonably close estimates measured by American Changer prior to packaging Product for shipment. Stated estimated dimensions and weights reflect only base Products without regard to added options.

Additional options may be available. All options and/or customized features are an additional cost over the base price of the Product.

American Changer does not guarantee goods and/or services to be 100% secure against criminal attempts. All goods and services are to be used in accordance with business best practices and the owner’s or operator’s best judgment.

Specifications stated herein may vary without notice. Capacities are approximations and may vary.

Installation, use, service, and maintenance must be performed in accordance with applicable Product manuals provided by American Changer and comply with any and all pertinent laws and regulations.
