

Value Adder Plus

This Value Transfer Machine Allows the User to Add Value to a SmartCard and Buy a SmartCard with Cash

The Value Adder Plus (VAP) is the next step up from the Basic Value Adder (BVA). Designed in a compact cabinet, it adds value to SmartCards with inserted cash, and it dispenses SmartCards which can be purchased for cash. The VAP features user friendly graphics and is available as either front or rear access, in a secure cabinet. Another feature offered in the VAP is Data-Trac™, ESD's exclusive card serial number tracking firmware used to resolve customer loss claims with up to 5,000 off-line transaction recall capability. The Value Adder Plus is the standard of the industry, an established product that has been the choice of route operators and management companies for more than a decade.

Front Access — 11-117-006
Rear Access — 11-117-007

Operator Benefits:

- ✓ Adds Value to a SmartCard for Cash
- ✓ Dispenses SmartCard for Cash
- ✓ Compact Size - Economy Price
- ✓ Easy to Collect - Easy to Install
- ✓ Data-Trac™ Card Serial Number Tracking

The Value Adder Plus can be mounted on a wall surface, embedded between studs, or it can be mounted on a pedestal. The rear access model is shipped with two right angle brackets for attaching to the wall studs. While ESD believes the cabinet is designed to discourage compromise, it is the responsibility of the operator to make certain that the VTM installation is safe.
