

NeoTech™ Plus 1017 Series Headsets

The NeoTech™ 1017 Series offers versatile, mainstream headsets and a headphone model for general-purpose classroom usage with computers and mobile devices. They deliver performance at a cost-effective price for 1:1 learning, assessment testing and more. Their circumaural ear cup design helps students focus by reducing ambient noise and their enhanced audio playback is calibrated to mirror the tonal range of the human voice with noise-reducing, high performance unidirectional microphones that capture a student's verbal response - not their neighbors' This makes the NeoTech 1017 ideal for language learning classroom, library and computer lab uses. With 3.5mm and USB connection options, they are compatible with tablets, smart phones, Chromebooks, laptop and desktop PCs & Macs and provide the versatility you need for BOYD and school-issued device requirements.

Durable Cords

All NeoTech™ and NeoTech™ Plus headphones and headsets feature a highly durable CaliTuff™ cord made of braided, PVC-jacketed material that resists chewing and cutting. The CaliTuff™ cord design includes a reinforced earcup entry point that resists stress separation.

Hygienic Packaging

The NeoTech™ Headset Series comes in a heavy gauge plastic zip lock bag that promotes classroom hygiene by isolating head lice while providing utility for storage when not in use.
