Poly Grease Container Liner

Features

Par-Kan's poly grease container liners are great for extending the life of older containers that may have deterioration on the floor or sides of the container.

Poly Liners are only available for the 294 gallon containers. Liners will NOT work with containers with heat tubes.

Features

Design: A sloped and curved design that covers the entire top of the container and provides a 2" extended drip ledge to keep containers free from grease spills. Metal latch on the underside of lid allows the entire lid to be padlocked to the container for security. Par-Kan's poly lids are lightweight, but strong and are shipped fully assembled for immediate use.

Finish: Powder Coated

Warranty: 1 Year

Poly Lids

Specifications

Poly lids are available to fit all Par-Kan grease container sizes. Including 106gal, 208gal, 294gal, & 400gal

Options
