CONTROL OPTIONS

The Universal Controller

The universal controller allows you to control **ANY** personal viewing screen and/or control **ANY** cable, satellite & IPTV set top box without the battery operated remote control.

The CAB (Console Adapter Box)

Use existing integrated console controls on cardio equipment to control attached personal viewing screens and/or control **ANY** cable, satellite or IPTV set top box without the battery operated remote control.

MOUNTING OPTIONS

Our commercial grade, high quality 23" HD widescreen LED TV with HDMI and COAX inputs are the perfect solution when replacing existing personal viewing screens or upgrading your club with personal screen entertainment. Our TV attaches to any existing attachable screen mount from popular cardio equipment manufacturers such as Precor, Life Fitness, Matrix, etc. We have custom made mounts for Life Fitness Activate, BH LK series and rail systems used in many Planet Fitness Clubs.

For equipment not compatible for an attached mount, use our telescopic stand or tiltable wall mount.
