

EF 275 PRECISION DELIVERY SYSTEM

LET'S MAKE IT YOUR BEST YEAR YET

The newly designed SeedWeigh bulk tender, by Par-Kan, incorporates all the features asked for by growers and seed dealers alike. The user friendly design allows you to deliver seed with precision and speed. With the KSi designed conveyor you'll deliver seed directly to your planting equipment with little or no damage. This year's newly designed SeedWeigh features easier to use self loading capabilities, offers a 20' conveyor, utilizes a Honda power source, and a platform ladder for stability. These are just a small number of reasons for you to consider the SeedWeigh as your next bulk tender. For the name of your closest dealer contact Par-Kan today!
