

MULTI-PURPOSE-BUILT FOR YOU

BOOST PRODUCTIVITY AND CUT COSTS.

Elliott Equipment Company's line of HiReach truck-mounted aerial work platforms and BoomTruck cranes are fully customizable to maximize the capabilities of your investment. From underbridge inspection to roadway sign maintenance and construction, Elliott has specialized solutions for your most challenging jobs. What's more, Elliott's engineers will work with you to help you customize your machine with options like special outriggers, outriggers to minimize traffic disruption, oversized work platforms, hydraulic diggers, service bodies and more. With Elliott, you can invest in a single machine that will do the work of three or more pieces of equipment, saving valuable budget dollars and maximizing the composition of your fleet. Plus, every Elliott comes with the peace of mind knowing that your machine is backed by the best warranty in the business.
