

SMOOTHER, STRONGER, MORE RELIABLE

WHERE HIGH PERFORMANCE MEETS SAFETY

Elliott Equipment Company supports the utility industry with dependable, safe and feature-packed aerial work platforms, cranes, and digger derricks designed to assist with transmission construction, substation maintenance, and much more. Elliott's HiReach truck-mounted aerial work platforms are ANSI A92.2 compliant combining working heights to 215' and material handling capacities up to 15 tons. Elliott's BoomTruck line ranges from 10 to 50 tons with a wide range of boom lengths and features like telescopic two section jibs, detachable work platforms, wireless remote controls and high torque digger options to maximize your productivity and performance. All Elliott Equipment Company products are backed by the best warranty in the business and a suite of operational aides that boost operator confidence and protect your company's most valuable assets, your people.

H110 HiReach

TAKE ON MULTIPLE JOBS WITH ONE MACHINE

Elliott's HiReach, BoomTruck, and Digger Derrick product lines bring you a full range of solutions to tackle your most demanding jobs. Enjoy precise personnel handling, rugged lifting capabilities, hole digging, pole handling and much more all on a single truck. Plus, Elliott's engineering department will work with you to build the optimal solution for your application and maximize the return on your investment.
