

4000 SERIES SIT-DOWN COUNTERBALANCED TRUCKS

(4460/4750)

Raymond 4000 Series sit-down counterbalanced trucks offer the comfort, durability and maneuverability to efficiently handle a wide array of tasks around the warehouse, particularly in confined spaces such as trailers, ramps and stacking areas. Powerful, reliable and adaptable, these 3 and 4-wheel electric vehicles can be perfectly tailored to your specific needs with a variety of capacities, configurations, masts and attachments.

- + **Versatility:** Optimize performance in applications ranging from bulk and block storage to trailer loading/unloading and racking with flexible configuration options.
- + **Maintainability:** Increase uptime and decrease maintenance costs with vehicles that deliver more performance per battery charge and feature fewer wearable parts.
- + **Ergonomics:** Enhance operator comfort and productivity with a spacious, easy-to-access compartment that includes a fully adjustable, full suspension, cushioned seat, tilt steering wheel, and ergonomically placed controls.
- + **Visibility:** Superior visibility improves operator comfort and confidence. The open view mast gives the operator a clear line of sight to the load for increased efficiency and reduced product damage.
