Standard Equipment

Weigh Tronix™ Scale System

- 3 point weight measurement: hitch and both spindles
- Model 715 touch pad monitor, 2lb incremental measurements
- Bilingual display: displays in English or Spanish

Operating Console

- Weatherproof compartment contains:
- Toggle switches for hydraulic controls
- Ignition switch
- Tachometer/hour meter
- Throttle and choke
- Provides record keeping area (lighted cabinet)

Axle Assembly

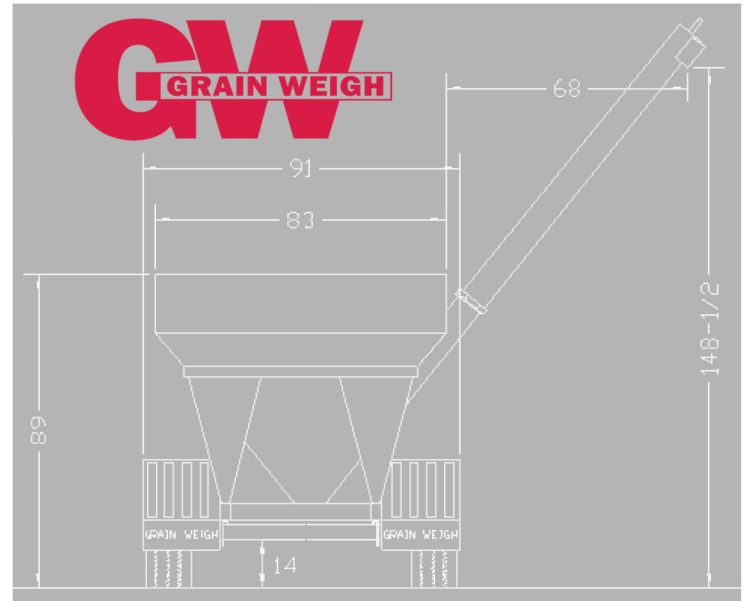

- 10,000 lb. torsion axle
- 2 1/8" spindles
- 8 bolt hub
- 16.5 x 9.75 wheels
- 12.00 x 16.5 F-load tires

Hydraulic Drive

- 18 HP Briggs & Stratton® Vanguard™ Engine
- Electric start with pull start backup
- Low oil pressure shutdown
- Keyed ignition
- Tachometer & Hour Meter with Maintenance Functions
- Automotive Battery
- 6 1/2 gallon removable fuel tank
- Hydraulic Manifold System with Manual Overrides
- Toggle switch control: auger display, auger reverse and flow gate control
- Features manual override
- Positive hydraulic auger lock; insures auger stays in displayed position when unloading

Bulk Seed Handling

- Optional telescopic and flexible seed tube allows one time cart positioning when tending drill or planter
- Poly Auger

Optional Equipment

SHUR-LOK® Tarp

- Rollaway ridgepole design provides open box (no tarp bows or strap to deflect seeds to the ground when filling)

Steel Toolbox

- Designed to carry a 5 ft. measuring wheel, moisture tester and tools. Lockable clasp

Seed Tube Extension

- 14 ft. telescopic tube facilitates one time cart positioning for tendering planter or drill

Brakes

- Hydraulic surge brakes

Remote Pendant Control

- Two switches for auger run and flow gate control

* All carts have been inspected, calibrated and selected options have been factory installed. We appreciate your business!
