

NFPA 1917-2013 COMPLIANT

Seat Belt Warning System

6204-0014-01 & 6204-0024-01

The Seat Belt Warning System addresses your safety concerns. Designed to alert the driver, the Seat Belt module will indicate when restraints of occupied seats are properly fastened keeping personnel safe. The 6204 Series meets NFPA 1917 requirements for your ambulance. Simple & reliable, the Seat Belt Warning System is based on the patented and proven V-MUX® multiplexing technology.

PRODUCT FEATURES:

- Low profile, compact size
- Supports commercial and custom cab seating layouts; up to 10 seats
- Dimming feature adjusts indicator intensity to synchronize with dash lights
- Integrated door open indicator
- Built-in audible alarm will sound when Seat Belt Indicator display is red & parking brake is released
- Choose from display with door and warning ICONS or just seats
- Standard 4 year warranty
- Use the 6020 node as an entry point system - update to the optional 6444 Vehicle Data Recorder (VDR)

6020 or 6444 Series Modules:

The 6020 or 6444 nodes can accommodate up to 7 seat positions, master warning switch, and parking brake. The inputs can be configured within the SystemDesigner® software. More seats/inputs can be added by including another module.

6241 Series Vista IV
Software configured Occupant Status Display can be viewed on your Vista saving you valuable dashboard space.

-  • Green indicates seat restraints are properly fastened
-  • Red flashing indicates unbuckled or improperly buckled seat restraint
-  • Not illuminated indicates a vacant or unoccupied seat

Dual CAN Ports

Data is extracted by a standard, mini USB cable (included) and plugs directly into your computer.
