18000 SERIES

-Drum is a minimum of 18” wide throughout its 36” height, regardless of orientation

-Tapered design allows stacking with or without barricade lights for easy handling and storage

-Drum and base remain “snapped together” until impacted or separated for transportation and storage

-Gentle curves throughout drum eliminate sharp edges or corners that crack and break when impacted

-Built-in carrying and dragging handle

-Two mounting holes for optional barricade lights

-Bright orange color molded throughout drum – UV inhibitors minimize fading

-NTPEP tested-meets or exceeds MUTCD specifications

-Retaining lip and flange for added strength during impact

-“D” shaped design minimizes rolling after impact and separation from base

18044-LD-HIP-40

100% recycled rubber base for increased durability and “gription” which resists movement from passing vehicles

Traffix Channelizer Drum Bases

Tired of drum tops and bases that don't fit, snap, or stay together? We have the solution. Traffix Devices offers the largest selection of channelizer drum bases in the industry. Choose from an array of different types and styles that best fit your needs and budget. And remember, whichever base you select, it will fit any Traffix channelizer drum top, even the ones you may have purchased years ago.

Standard Base (requires sand bag)
18003-A

25 standard bases nest for shipment and storage

Economical and easy to use - simply place the base on the ground, add a sand bag and snap - lock the drum top to the base. Made of durable, impact resistant polyethylene.

San-Fil Base
18005-SFB

Automobile running over a San-Fil base

San-Fil bases are designed to hold approximately 50 pounds of sand. The twist lock cover keeps the sand inside the base. Two carrying handles make movement and placement an easy job. The low profile 4" high base easily clears vehicle undercarriages and can even support the weight of any vehicle, when properly filled.

Recycled Rubber Base
18025-RUB (25 lb.)
18040-RUB (40 lb.)

Worker using center carrying hole with 40-lb. base

Traffix 100% recycled rubber base is the "sandless" way to ballast channelizer drums. The rubber base "grips the road" and minimizes drum movement due to wind gusts. Rubber bases come in 40 and 25 pound weights with two convenient carrying methods.

All Traffix Bases are Interchangeable with All Traffix Drum Tops
