

The Latest Innovation In Plastic Barricades

With All-Modular Components

High impact Barricade stacks without having to remove barricade lights.

Molded-in male and female stacking lugs keep barricades firmly in place for shipping and storage.

Combination metal hinge/bolt protector (bushing) and steel reinforcing washer holds light firmly and securely in place

Combination metal hinge/bolt protector (bushing), keeps barricade legs tightly locked together.

Skid-resistant "Gription" teeth are molded-in to the bottom of each leg to help keep the barricade firmly in place.

Optional San-Fil bottom panel holds up to 15 lbs. of sand. An ideal way to stabilize the plastic barricades without using messy sandbags. San-Fil panels can be imprinted with raised molded-in letters, or stenciled with your name or logo.

If you're tired of wasting money by discarding bent metal legs, broken wood panels, or unrepairable plastic barricades, consider the **TrafFix High Impact Modular Plastic Barricade**. This barricade is constructed from impact resistant plastic, and all the components can be replaced should they become broken or damaged.

You can **SAVE \$\$\$** by repairing your barricades and also reduce material going into our landfills. All TrafFix Plastic Folding Barricades are 100% recyclable.
