ElectricValveController

STYLE 9313

The newest in electronic valve actuation.
The new Valve Controller from Akron Brass provides reliable and accurate valve control with valve position indication thru 10 LED indicators identifying the degree of Open/Close.

Includes many features such as:
- Technically advanced solid-state electronics
- Easy pump panel mounting
- Retrofits to existing apparatus
- Protected against EMI
- Programmable Auto Open
- 12 and 24 Volt
- Meets all aspects of NFPA 1901
- 4 1/4" square face
- 5 year warranty

Standard Configuration includes a Valve Controller, Controller Harness and 10' Wiring Harness

NavigatorControllers

STYLE 9315

The All New Smart Navigator from Akron Brass offers reliability, accuracy and ease of use in a new lightweight compact housing to optimize pump panel space that is so critical with today's fire apparatus. No more over sized control heads and bulky add on gauges to consume valuable pump panel space!

Everything is in one compact intelligent unit designed to identify the intended use:

Need a Valve Controller? -It will do that.
Need a Valve Controller with Pressure Meter? -It will do that.
Need a Valve Controller, Pressure Meter and Flow Meter? -It will do that.
Need a Flow Meter/Pressure Meter? It will do that.
It will do all that and more!

Need an Auxiliary Controller? Use the same unit to control the valve - with the added benefit of providing Pressure and/or Flow when required!

And there is more-
Now with position visual indication, a new graduated scale identifies the valve position. Not just Open or Closed, or somewhere in between, but 10 separate bars showing the valve position.

- Plug and Play
- Easy connection to Valve, Pressure and/or Flow Sensors No added plumbing, no gears, no linkage, no hassle
- Technically advanced solid-state electronics
- Easy pump panel mounting
- Retrofits to existing apparatus
- Protected against EMI (Elector Magnetic Interference)
- Programmable Auto Open
- 12 and 24 Volt
- Field programmable units of measure (GPM or LPM, PSI kPa or bar)
- Meets all aspects of NFPA 1901
- 4 1/4" square face
- 5 year warranty

Standard Kit Configuration:
- Navigator
- Flow Sensor
- Pressure Sensor
- (2) 10' Cables
- 10' Wiring Harness
- Navigator Harness

- Other configurations include:
  -Valve operation with Pressure
  -Valve operation with Flow
  -Pressure and Flow only
