AS-15BLU: POWERED BLUETOOTH SPEAKER

PLAY EVERYTHING, HANDS- FREE

The world's your stage with our AS-15BLU speaker powered with our patent-pending high-performance systems that define Gemini speakers. Our scientists have engineered a speaker system that delivers stadium quality performance in a backpack-sized package. Backed by Class AB amplifier and custom-built 15" woofer, the speaker is meticulously tuned for deep, rich, stereophonic sound with absolutely no distortion. You can play all the popular streaming devices – USB drive, SD card, FM radio, and by connecting via Bluetooth – for powering all your entertainment. With AS-15BLU, we've paid attention to the smallest of details and we guarantee you'll hear deep roomy bass and crystal-clear linear sound reproduction.
