Unmatched durability and stability for people of all sizes and abilities

Specifiers, designers and owners strive to make everyone feel welcome and safe in their surroundings. Young or old, large or small, Bradley SteadyCare products are designed to help people maneuver more comfortably around restrooms and shower rooms by providing extra safety and stability. This is especially important in the healthcare industry but also in many other applications that cater to a diverse group of users such as schools, airports, stadiums and fitness centers.

Designing restrooms or shower rooms that can accommodate a variety of user needs can be challenging. For example, today there is no standard for designing restrooms for people of size, so designers look to ADA requirements, FGI Guidelines and Universal Design principals for direction. Bradley SteadyCare grab bars and shower seats with the industry's best load ratings are the solution. Save time by specifying these products throughout the facility and be confident you've met the stability needs of all users.

Benefits of SteadyCare Solutions

-  Best-in-class products for user stability
-  Grab bars and shower seats with industry leading load ratings
-  Save time by specifying one grab bar or shower seat for all needs
-  Provide stability in the restroom with coordinating products
-  Eliminate job site confusion as to which products get specified where
-  Provide for both independent-transfer and assisted-transfer accessible solutions
-  Wide selection of configurations available

Optional safety grip finish available on all grab bars

Grab Bars

Always known for durability and reliability, Bradley SteadyCare grab bars are now stronger than ever, bringing more options to specifiers and designers.

Grab bar models are now rated at 900, 1,000 and 1,250 pounds (408, 454 and 567 kilograms) to provide ultimate user stability. A wide selection of grab bar configurations are available to furnish many different restroom layouts and address a variety of user needs.

8320-106 Series

HEAVY DUTY SWING-UP GRAB BARS

Featuring a sleeker less obtrusive wall-plate and a redesigned grab bar shape that allows for an industry best load rating of up to 550 pounds (249 kilograms). Swing-up bars provide users steady support while occupying less space around toilets, baths and showers.

- Supports up to 550 lb (249 kg) static load
- Standard 30" (762 mm) length
- Available with integral toilet tissue dispenser
- Available with safety grip finish
- ADA compliant

8370-107 Series
