

Modular Jib Crane

for Vektor-MD, MH and MS

Simplified installation, ease of maintenance, and reliability are all provided by incorporating a Vektor modular jib crane with your Vektor laboratory exhaust system.

Greenheck's Vektor modular jib crane is engineered to simplify motor maintenance. Quick-connect crane supports are easily mounted directly to factory-installed plenum pedestals eliminating cumbersome bolting. Once in place, the jib crane can remove the windbands from a direct drive unit and motors from all Vektor-M series systems. A disassembled jib crane can be stored indoors requiring minimal space.

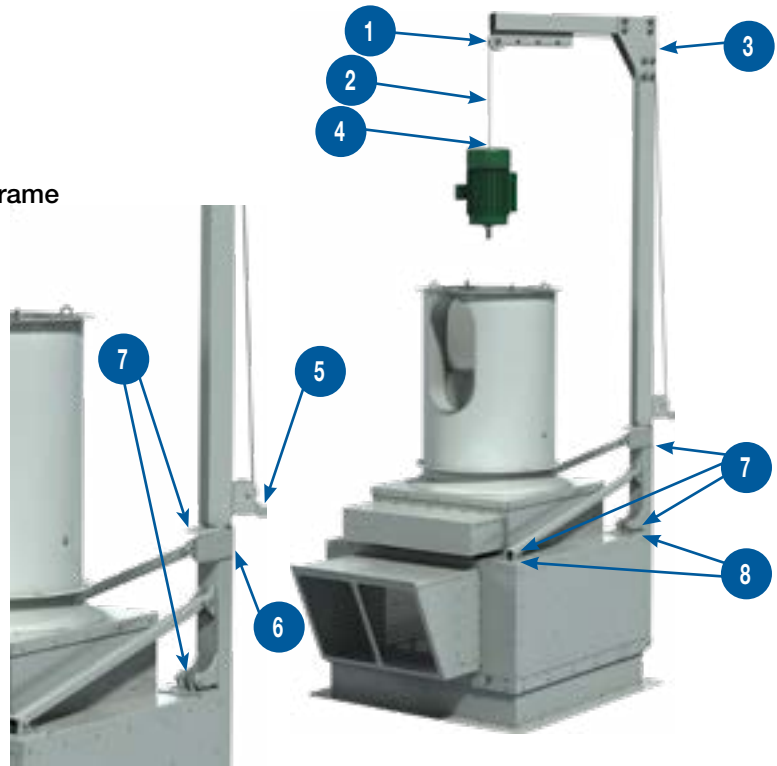

Advantages:

- Crane lifts itself into place, pinned with crank and winch
- Simplified design minimizes installation time and effort
- Easy operation simplifies maintenance
- Unique modular design minimizes storage space
- Convenient jib crane removal allows the winch to be stored out of the elements
- Fabricated of corrosion-resistant coated steel and stainless steel cable
- A single Vektor modular jib crane can service multiple Vektor systems
- Modular jib crane and entire Vektor assembly manufactured by Greenheck Fan Corporation, Schofield, Wisconsin USA

All modular jib crane subassemblies are fabricated using fully-welded carbon steel. These components are coated with a durable, mechanical and chemical-resistant finish. The jib crane support is easily connected and removed using quick-release connectors on factory-installed plenum mounted pedestals. A swivel joint on the upright support allows the stainless steel cable and hook to access multiple Vektors from one mounting location.

- 1 Solid pulley to ensure smooth, easy hoisting
- 2 Braided stainless steel lifting cable
- 3 Gusseted, corrosion-resistant carbon steel frame
- 4 Hardened, corrosion-resistant steel lifting hook
- 5 Locking hand crank for quick operation
- 6 Swivel joint allows access to multiple Vektors
- 7 Connector joints allow quick, easy set-up and removal to minimize maintenance time
- 8 Factory-mounted pedestals guarantee safe installation and operation

VEKTOR® Family of Lab Exhaust Systems

Our Commitment

As a result of our commitment to continuous improvement, Greenheck reserves the right to change specifications without notice.

Specific Greenheck product warranties are located on greenheck.com within the product area tabs and in the Library under Warranties.
