

Hotel and Residential

Hotel rooms and personal residences alike can easily become victim of hard to eliminate mold and smoke odors. PureVISTA is the first and only product to create chlorine dioxide gas on-site making it safe and easy to use for eliminating strong odors and mold spores at their source. PureVista is a portable, water activated, gassing system that has the power to clean any hotel room or residential house.

PureVISTA disinfection system is perfect for routine or emergency cleaning. PureVISTA is inexpensive, safe, and can be scaled to the specifications of any facility to deliver an effective dosage.

Efficient

- Permanently eliminates all mold, mildew, and smoke odors in one use
- Removes airborne pathogens to prevent recontamination
- Eliminates recontamination caused by missed surfaces

Effective

- Total disinfection is accomplished
- Areas can be occupied immediately after treatment and ventilation
- A PureVISTA application can be scaled to any size area

Portable

- Does not require electricity or machinery
- Allows for targeted treatment
- Handheld applicator can be placed in hard to reach areas

Value

- Reduce the labor-intensive process of manual cleaning
- Routine cleaning combined with a PureVISTA treatment maintains odor-free room

About Chlorine Dioxide

Chlorine dioxide works by penetrating the cell wall of the microorganism and disrupting the pathogen's metabolic functions, thus immediately and permanently eliminating the problem at its source. Chlorine dioxide is a powerful biocide at concentrations as low as 0.1 PPM over a wide pH range. It is more effective than ammonia and chlorine with no hazardous by-products. Studies from the FDA and EPA show that chlorine dioxide is effective in eliminating over 20 of the most common harmful pathogens.

PureVISTA Advantages

- Safe, portable, and easy to use
- No capital investment
- Quickly destroys all odors
- Eliminates pathogens
- Kills mold spores

Targeted Applications

- Hotel Rooms
- Houses
- Fitness Centers
- Bathrooms
- Schools
- Locker rooms

Treatable Pathogens

- Mold
- Mildew
- Smoke Odors
- Pet Odors
- Food Odors
