

IS7000

VIDEO INSPECTION SYSTEM FOR DUCT CLEANING

The Reliable Choice for Duct Cleaning Contractors

Generate Additional Duct Cleaning & Repair Business

The IS7000 is designed to provide contractors with the ability to effectively inspect residential and commercial duct systems, and to accurately determine contamination levels, sources of airflow problems and necessary duct repairs. Images can be saved to a SD card and downloaded to a computer for viewing.

The IS7000 package includes a high resolution color camera on a 65' cable, a 7" TFT color monitor, DVR, carrying case, battery & charger, camera skids, dual earphone output and keyboard. This high-tech tool will pay for itself quickly, helping you to close the sale, provide validation of job results and generate additional duct cleaning and repair business.
