

Operator and Maintenance Training

CVU-101 Single Function Control Valves

Developed specifically for Waterworks System Operations and Maintenance personnel, CVU-101 is an excellent choice for individuals who are new to the industry or as a refresher course for experienced operators and maintenance workers.

CVU-201 Dual Function Control Valves

Developed for Waterworks System Operations and Maintenance personnel, CVU-201 provides hands-on training related to valves that perform more than one function in a single valve, where installation, set-up and operation requires more in-depth technical understanding and direction.

Prerequisite: Successful completion of CVU-101

CVU-301 Electronic Control Products

CVU-301 offers comprehensive training in the operation and troubleshooting of Cla-Val's broad range of electronic products. Taught in a professional educational environment, hands-on training provides Operators with essential knowledge of the installation, set-up and operation of **products such as the VC-22D Electronic Valve Controller and our 34 Series Actuators.**

Prerequisite: Successful completion of CVU-101

Training Location

Cla-Val Training Center • 1741 Placentia Avenue
Costa Mesa CA 92627
