Translink™ Parallel Link Truck Scale Assembly

Rice Lake Weighing Systems

Mount only; does not include load cell. Picture is a representation of actual product.

The Translink parallel link truck scale assembly is designed for use with Rice Lake Weighing Systems' RL75223 and RL75040A, VPG Revere's 5223 or VPG Sensortronics'® 65040A load cells. This design allows the scale platform to move freely in all directions on a horizontal plane while causing the platform to self-center because of the pendulous action of the links. The unique parallel link design eliminates the need for costly and troublesome checkrods. Simply install platform bumpers and forget about over-travel. This mount is ideal for heavy-capacity weigh bridges.

Standard Features

- Capacities: 25,000-100,000 lb (11,339.8-45,359.4 kg)
- · Center-supported, end-loaded double-ended shear beam design
- · Free movement in all directions in the horizontal plane with virtually no friction
- Links provide optimal loading conditions for the cell
- · Completely self-centering
- · Requires no check rods
- Utilizes cells with 3 mV/V output
- Models available are RL75223 and RL75040, RTI 5223 and Vishay Sensortronics 65040A load cells

Applications

- · Truck scale mount
- · Heavy-capacity horizontal tanks

Dimensions
