

## PROFESSIONAL CONFERENCING

# Converge™ Pro

# Converge

# XAP®

# PSR

ClearOne's professional audio conferencing and sound reinforcement products are the most sophisticated, feature-rich systems on the market, offering unrivalled audio processing performance.

ClearOne professional audio conferencing solutions deliver the ultimate in voice clarity, which allows participants to speak and listen naturally anywhere in the conference room without shouting or straining to hear.

The Converge Pro series of next-generation professional audio conferencing products delivers a new level of unrivalled performance, flexibility, and manageability. These products build on the heritage of the worldwide market-leading XAP family.

### Converge Pro 880 **NEW**

The successor to the market-leading XAP 800. It features unrivalled audio processing performance, integrated Ethernet and USB, simplified configuration software, and many other new features for conferencing and sound reinforcement applications.

8	MIC/LINE INPUTS	4	LINE INPUTS
12	OUTPUTS	0	TELCO CHANNELS

### Converge Pro 840T **NEW**

The successor to the market-leading XAP 400. It combines the features of the Converge Pro 880 with a single-line telephone interface and a 10-watt amplifier for stand-alone conferencing applications.

4	MIC/LINE INPUTS	1	SPEAKER OUTPUT
8	OUTPUTS	4	LINE INPUTS
		1	TELCO CHANNELS

### Converge Pro 8i **NEW**

New input only platform. Adds eight more inputs to Converge Pro systems at a lower price, allowing customers to match the number of inputs and outputs required.

8	MIC/LINE INPUTS	4	LINE INPUTS
0	OUTPUTS	0	TELCO CHANNELS

### Converge Pro TH20 **NEW**

The successor to the XAP TH2. It adds telephone conferencing capabilities to the Converge Pro 880, and also adds two additional line inputs and outputs.

0	MIC/LINE INPUTS	2	LINE INPUTS
2	OUTPUTS	1	TELCO CHANNELS

### Tabletop Controller For Converge Pro **NEW**

An affordable controller for ClearOne's Converge Pro platform. The Tabletop Controller gives Converge Pro users the ability to easily start and navigate an audio conference without the need for expensive touch panel control systems. Offers five user-definable keys to manage the most commonly used audio conference and presentation control functions.

ClearOne solutions can be found in offices,  
boardrooms, training centers, hotels,  
courtrooms, and auditoriums worldwide.

XAP's unmatched audio performance has earned it the distinction as the undisputed leading choice for boardrooms, convention centers, distance learning facilities, courtrooms and other multi-use conference rooms. This scalable solution enables superior audio conferencing performance in medium to large environments.

#### **XAP 800**

The ultimate audio management platform for conferencing and sound reinforcement applications. It delivers market leading audio processing performance for large scale, installed audio systems.

#### **XAP 400**

Combines the features of the XAP 800 (with fewer inputs and outputs), and adds a single-line telephone interface and a 10 Watt amplifier to create a stand-alone teleconferencing system.

#### **XAP TH2**

Adds telephone conferencing capabilities to the XAP 800. Link multiple XAP TH2 units to conference additional phone lines.

#### **Tabletop Controller For XAP**

An affordable controller for ClearOne's XAP platform. The Tabletop Controller gives XAP users the ability to easily start and navigate an audio conference without the need for expensive touch panel control systems. Offers five user-definable keys to manage the most commonly used audio conference and presentation control functions.

#### **XAP Net**

An advanced control interface for ClearOne's industry-leading professional conferencing line. The XAP Net brings Ethernet connectivity to XAP and PSR1212 audio systems, allowing remote programming, upgrades, and diagnostic functions.

---

### **Converge 560/590**

An easy-to-use conferencing system with flexible microphone and speaker options. Converge 560 and 590 deliver exceptional audio conferencing quality at a value price point far superior to the competition. Innovative microphone distribution boxes, plus the ability to connect to rich-media systems, allow great flexibility in a wide variety of medium-sized room applications.

---

### **PSR1212**

A highly-advanced 12 x 12 digital matrix mixer featuring ClearOne's sophisticated audio processing technologies. The PSR1212 provides microphone mixing and routing, and is the ideal solution for sound reinforcement and room combining applications in a wide variety of venues.

---

### **Professional Conferencing Microphones**

A variety of high-performance mics for installed applications. The tabletop mic is a low profile boundary mic that can be easily placed in the optimal location. The Delta mic combines three tabletop microphones for 360 degree coverage.
