

PERSONAL CONFERENCING

ChatTM

The Chat speaker phone products provide unmatched full-duplex audio clarity and connect to a wide variety of devices for conferencing wherever and whenever you need it.

Over 100 million people are estimated to
now be using their PC as a phone.
That's a lot of people that need a Chat 50.

The Chat 50 is a mobile audio peripheral that connects to a variety of devices and provides crystal-clear, hands-free audio communications. With unmatched full-duplex capability, users can simultaneously speak and listen without audio cutting in and out. The Chat 50 also delivers rich audio playback for music, gaming and other sound files.

Chat™ 50 USB NEW

The industry's first true full-duplex personal conferencing device. It connects to PCs and laptops, telephones, cell phones, desktop video conferencing systems, and MP3 players for remarkably clear audio communications and playback. It delivers full-bandwidth frequency response for full, rich audio with unmatched full-duplex performance. Includes Chat 50 personal speaker phone, USB cable, quick start guide, CD. Separate cables required for non-USB connections.

Chat™ 50 USB Plus International NEW

A Chat 50 bundle with accessories for cell phones and some telephones, including an international power supply. This bundle includes the Chat 50 personal speaker phone, USB cable, cell phone and telephone audio cable (2.5mm-3.5mm), power adapter with international power clips (US, Europe, UK, Australia), quick start guide, CD.

Chat™ 50 Global Traveler NEW

A Chat 50 bundle with accessories for cell phones and some telephones, including an international power supply. This bundle includes the Chat 50 personal speaker phone, USB cable, cell phone and telephone audio cable (2.5mm-3.5mm), power adapter with international power clips (US, Europe, UK, Australia), travel case, MP3 player audio cable, quick start guide, CD.

Tired of huddling around your office telephone and shouting at the people on the other end of the call?
Read on for a much better solution.

The Chat 150 connects to telephones, PCs, and video conferencing systems for rich, full-duplex audio communications. It provides speaker phone capability that is far superior to the built-in options on these devices. A perfect addition to the office or conference room for greatly enhanced collaboration.

Chat™ 150 For Enterprise Telephones NEW

Connects to leading Enterprise telephone handsets. Allows user to utilize functions of phone, but enjoy business-class audio conferencing performance. Eliminates need to install additional lines - utilizes whatever line type (analog, digital, VoIP) the phone is connected to - just plug into existing phone and use. Includes breakout box that allows users to switch between speaker mode and privacy mode with a headset. Also includes USB port for connecting to a PC.

*Note: connectivity to telephone handsets is limited to specific models due to variations in the headset jack that the Chat 150 connects to.

Chat™ 150 USB NEW

Connects to PC via USB for superior wide-band audio performance for VoIP softphones & internet telephony, web-based video conferencing, instant messaging, and any other audio based applications.

Chat™ 150 VC NEW

Connects to video conferencing systems, both installed and set-top. Provides greatly enhanced audio performance for small groups, delivering 360-degree mic pickup and crystal clear audio from the far end. Also includes USB port for connecting to a PC.

CHAT 150 USAGE PROFILES

Personal

Enterprise Telephones	Avaya, Cisco, others (connectivity limited to certain models)
Internet Telephony	Skype, Vonage, Google Talk, others
VoIP Softphones	Avaya, Cisco, Nortel
Web Conferencing	IBM Workplace, Microsoft Live Meeting, WebEx
Instant Messaging	AOL, Microsoft MSN, Yahoo
Video Conferencing	Polycom, Sony, Tandberg
Audio Playback	QuickTime, RealPlayer, Windows Media Player

CHAT 150 CONFIGURATIONS

The Chat 150 comes in three versions, allowing users to connect to enterprise telephones, PCs, and video conferencing systems. All systems have a USB port for connectivity to a PC. The telephone SKUs vary by phone manufacturer because the breakout boxes that connect the Chat 150 to the phone are tailored to the specific requirements of the phone.
