

PREMIUM CONFERENCING

RAV™

This complete audio conferencing system in a box delivers superior sound quality for stand alone audio conferencing, and connects to video and web conferencing systems.

Over 3,000,000 conversations are estimated to take place on ClearOne products each year.

RAV (pronounced “rave”) is a revolutionary audio conferencing system that features sophisticated audio technologies found in ClearOne’s industry-leading professional product line, and is as easy to set up and use as our tabletop phones. RAV easily interfaces with any web and video conferencing system.

RAV 600

Includes an audio mixer with an integrated telephone interface and amplifier, two Bose® ceiling- or wall-mount speakers, a wireless or wired control unit, RAV-Ware™ software and two RAV microphone pods comprised of three microphones each. The system also includes Ethernet control for remote management and configuration capabilities.

RAV 900

Includes all the features of the RAV 600, plus it adds an extra microphone pod to deliver optimal voice pickup in larger rooms.

TABLE DIAGRAMS

The recommended distance between the mic pods and each participant is between 1 and 4 meters, depending on room conditions. Background noise, reflective hard surfaces and the number of participants may effect the pickup range.
