

XTerm Communications Software

Overview

Sutron's XTerm Communications Program allows any PC to remotely setup and operate an Xpert or XLite Datalogger without using a front panel. No installation is required for XTerm. Simply download the program from the Sutron website (www.sutron.com) to any folder on your PC or smart device.

Features

- ▶ Remote operation of Xpert or XLite
- ▶ Automatically displays the graphic display of the Xpert or XLite
- ▶ Sends mouse clicks to the Xpert or XLite as if you were pressing the touch screen
- ▶ Easy file transfer to allow uploading and downloading of setups, programs, and data files
- ▶ Set the clock of the Xpert or XLite with a single button
- ▶ Export the log to your PC
- ▶ Communicate to an Xpert or XLite via RS232 com ports 1-9 at up to 115200 baud.
- ▶ Supports direct connect modems, and keyed half duplex radio systems
- ▶ Communicate to an Xpert or XLite via a TCP/IP network.
- ▶ Communicate over the internet by using XTerm as a proxy
- ▶ Automatically prompts for login account and password when needed.
- ▶ Display system information regarding running processes, threads, and memory usage
- ▶ Also available for Windows Mobile , pocket PCs & PDAs
- ▶ XTerm remotely transfers files and provides software/firmware for Sutron's 8310 & 7310 Dataloggers.
