Be Right™

Pocket Testers

Pocket Pro and Pocket Pro+ Testers measure electrochemical parameters in a broad range of water applications. The family of 12 pocket meters offers convenient portable solutions for pH, ORP, conductivity, TDS, salinity, and temperature, delivering accurate results you can be confident in. The Hach Pocket Pro+ Testers take the value a step further with replaceable sensors, powerful backlight, and multi-parameter tester options. The Hach Pocket Testers are engineered to deliver accurate results, backed up with built in performance diagnostics, you never have to guess when to clean or calibrate the sensor. Each tester is equipped with replaceable batteries for convenient field use, and a large, easy-to-read LCD screen.

The Pocket Pro and Pocket Pro+ Testers are ideal for pool water testing measuring pH, ORP, Conductivity, TDS & Temperature. The handy pocket meters are also perfect in field use for testing industrial wastewater, drinking water, and food & beverage products.

Part Number	Replaceable Sensor	Backlight	Calibration Diagnostics	Singlet included in Box	Parameter	USD Price
9531000	No	No	Yes	Yes	pH, Temp	Contact Hach
9531100	No	No	No	No	ORP	Contact Hach
9531200	No	No	No	Yes	LR TDS, Temp	Contact Hach
9531300	No	No	No	Yes	HR TDS, Temp	Contact Hach
9531400	No	No	No	Yes	LR Conductivity, Temp	Contact Hach
9531500	No	No	No	Yes	HR Conductivity, Temp	Contact Hach
9531600	No	No	No	Yes	Salinity, Temp	Contact Hach
9531700	Yes	No	No	No	Temp	Contact Hach
9532000	Yes	Yes	Yes	Yes	pH, Temp	Contact Hach
9532100	Yes	Yes	No	No	ORP	Contact Hach
9532700	Yes	Yes	No	Yes	Conductivity, TDS, Salinity, Temp	Contact Hach
9532800	Yes	Yes	Yes	Yes	pH, Conductivity, TDS, Salinity, Temp	Contact Hach
