Moisture Analyzers

Hach Offers Ohaus® Moisture Analyzers are designed to quickly, effectively and affordably measure moisture content and incorporate state-of-the-art heating and weighing technologies for fast and accurate results. Perfect for laboratory, wastewater treatment plant, processing and preparation environments. These analyzers are versatile and rugged enough for continuous operation, featuring excellent repeatability properties for consistent accuracy during testing.

Part Number	Communication Capabilities	Units	Readability	Capacity	Measurement Modes	USD Price
2946402	RS232 with GLP/ GMP Data Ouput	% moisture, % solids, % Regain	3	120g	Weighing, Percent Moisture Determination, Percent Solid Determination, Percent Moisture Regain Determination	Contact Hach
2946401	RS232 with GLP/ GMP Data Ouput	% moisture, actual weight (g)	2	90 g	Weighing, Percent Moisture Determination	Contact Hach
