

LuminUltra ATP Testing

Hach proudly carries LuminUltra's complete line of free and total ATP testing solutions. The LuminUltra product line is comprised of a luminometer instruments (PhotonMaster and PhotonMaster w/Photonmaster Bluetooth Module bundle), 2nd Generation free or total ATP Test Kits (Quench-Gone Aqueous, etc.), and LuminUltra Cloud software. Test kits are available for a variety of applications, including Drinking water, Oil & Gas, Food and Beverage (CIP), Nitrification, Organics, Wastewater, and other industrial applications.

In addition to instruments and the free and total ATP test kits themselves, Hach carries individual reagents so replacing only what's needed is possible as well as instrument cleaning and maintenance items.
