Digital Titrator Test Kits

Hach digital titrators use a high-precision dispensation device and replaceable titrant cartridges for highly accurate results in the field or lab. More than 50 different parameters and/or ranges are available to suit many testing applications. Each kit includes comprehensive instructions, apparatus, reagents, and a rugged carrying case.

Quick-change cartridges allows the user to switch parameters in seconds, and each cartridge provides between 40-100 titrations, depending on sample concentration. Common parameters available include total hardness, chloride, sulfide, carbon dioxide, and acidity.

Part Number	Parameter	Platform	Range	USD Price
145401	Hardness, total - As CaCO ₃	Drop Count Titrator	20 - 400 mg/L CaCO ₃	Contact Hach
2063700	Alkalinity - (P) & Total (MO) - as CaCO ₃	Digital Titrator	10 - 4,000 mg/L CaCO ₃	Contact Hach
2063900	Hardness, total & Calcium - As CaCO ₃	Digital Titrator	10 - 4,000 mg/L CaCO ₃	Contact Hach
2471100	Chlorine, mid and high range - As total Cl ₂	Digital Titrator	20 - 2,000 mg/L Cl ₂	Contact Hach
2063600	Hardness, total - As CaCO ₃	Digital Titrator	10 - 4,000 CaCO ₃	Contact Hach
2687100	Hypochlorite, high range - (Bleach) As Cl ₂	Digital Titrator	5 - 15 % = 50-150 g/L Cl ₂	Contact Hach
2580600	Chloride- As Cl ⁻	Digital Titrator	10 - 10,000 mg/L Cl ⁻	Contact Hach
2063500	Chloride- As Cl ⁻	Digital Titrator	10 - 8,000 mg/L Cl ⁻	Contact Hach
2063300	Sulfite - As SO ₃ ²⁻	Digital Titrator	4 - 800 mg/L SO ₃ ²⁻	Contact Hach
2064000	Acidity - (P or Total) as CaCO ₃	Digital Titrator	10 - 4,000 mg/L CaCO ₃	Contact Hach
2064100	Carbon Dioxide - As CO ₂	Digital Titrator	10 - 1,000 mg/L CO ₂	Contact Hach
