Immunoassay Test Kits

Hach's Immunoassay test kits use Hach's rugged and waterproof Pocket Colorimeter II (PCII) instrument to measure parameters such as Alachlor, Total Petroleum Hydrocarbons (TPH), and Atrazine. Many kits come equipped with soil extraction equipment, also sold separately. Replacement reagent sets and accessories are also available. Each kits comes complete with instrument, apparatus, reagent, instructions, and rugged Hach carrying case.

Part Number	Description	Platform	Range	USD Price
2774300	TPH Immunoassay Reagent Set		20, 50, 100, 200 ppm threshold	Contact Hach
709929	Anhydrous Sodium Sulfate, 250g			Contact Hach
2581802	Flip-spout Caps, pack of 2			Contact Hach
2567729	Soil Extractant, 200 mL			Contact Hach
2567620	Filter and Barrel Assembly, pk/20			Contact Hach
2592920	Soil Sample Container, pack of 20			Contact Hach
2179020	Weighing Boat, 8.9 cm square			Contact Hach
4879900	Rack, 1 cm Micro Cuvette			Contact Hach
2775100	Soil Extraction Test Kit			Contact Hach
2775200	Refill for Soil Extraction Test Kit			Contact Hach
2775000	TPH in Soil, Pocket Colorimeter II Test Kit		20, 50, 100, 200 ppm thresholds	Contact Hach
2569320	Disposable Spatula, pack of 20			Contact Hach
